U.S. Electric and Gas Markets...

- Have several layers of “regulation”:
 - Federal (FERC, EPA, NERC,
 - State (PUCs, State EPA, SEOs,
 - Local (bldg. and fire codes, noise, zoning, electrical interconnection)

All Regulatory Parties
Will Need Education
on “Dis-tributedness”

E&O Program Elements

- Supporting the development of new standards (IEEE P1547, ANSI Z21.83) and the adoption of those standards in National Building Codes
- Training/certifying local bldg. and fire code officials on new technology installations
- Training/certifying installers
- Educating state, regional (ISO, RTO) and federal regulators on “dis-tributedness” in energy

FY01 E&O Activities

- DER “Road Show”
 - California, New York, Nevada, Vermont
- Fuel Cell Summit (newsletter & annual meeting V)
- DP workshop with PTI-member code officials (Golden, CO)

FY02 Activities

- DER “Road Show” (6 states TBD)
- Training, certification and materials dbase
- Formal Program Kickoff (fuel cells, microturbines, DP and Office of Solar)
- Materials development, 1/2 day and full-day seminar design
- Trainer/Speaker DBase
